ESO-ESSO MASTERCLASS IN BREAST CANCER SURGERY

4-7 October 2014
Ermatingen (Lake Constance)
Switzerland

Chairs:

A. Costa, IT - M. Leidenius, FI - L. Wyld, UK

Scientific Co-ordinator:

W. Gatzemeier, IT

AIMS AND OBJECTIVES

The Masterclass in Breast Cancer Surgery offers participants a qualified, comprehensive training to improve their knowledge and skills in the management, treatment and care in the field of breast cancer management.

Within the concept of a multidisciplinary approach attendees will improve in their skills in the totality of treatment of breast cancer and increase their confidence in the management of complex cases. Participants will better understand current best clinical practice and state of the art in breast cancer care.

The Masterclass will enable participants to implement evidence-based concepts and guidelines on the surgical treatment of breast cancer to individualize the care of their patients.

TEACHING FORMAT

The Masterclass in Breast Cancer Surgery is at the cutting edge of current concepts of surgical treatment of breast cancer. The focus of the Masterclass is on evidence-based clinical practice and technical aspects of breast cancer surgery, within a multidisciplinary approach. The programme offers plenary lectures regarding state-of-the-art clinical evaluation, treatments with reference to clinical guidelines which will conclude in take-home messages. The Clinical sessions will be complemented by Tumour Board discussions.

Furthermore, participants will deliver case presentations within small groups and discuss these with the chairmen and the faculty aiming at facilitating the interaction between participants and teachers.

All participants will reside at the course venue and participation is compulsory throughout the course. The Masterclass will be entirely in English and fluency in English is mandatory for admission

THE MASTERCLASS IS:

- 3-day residential educational event
- Full immersion in breast cancer surgery
- Clinically-oriented training
- Multidisciplinary
- International faculty of top experts delivering lectures
- Meet the expert workshops and case discussions

IDEAL PROFILE OF THE MASTERCLASS CANDIDATE

- Age between 30 and 45 years
- At least 2-3 years' experience in surgical oncology / breast cancer surgery
- Involvement in scientific activities
- Fluency in English

ACCREDITATION

All participants will be issued a certificate of attendance at the close of the Masterclass. Application for CME recognition will be submitted to the Accreditation Council of Oncology in Europe (ACOE) and to the European Accreditation Council for Continuing Medical Education (EACCME), an institution of the European Union of Medical Specialists (UEMS). EACCME credits are recognised by the American Medical Association towards the Physician's Recognition Award (PRA).

Information on the status of the applications can be obtained from the organising secretariat.
