ESTRO
European Society for Therapeutic Radiology and Oncology

GEC
Groupe Européen de Curiethérapie

Conference
May 13-16, 2009
Porto, Portugal

In cooperation with:
International Society of Intraoperative Radiotherapy-Europe

ISIORT
From the Chairman of GEC-ESTRO

I have much pleasure in welcoming you to the 2009 Annual Conference of the GEC-ESTRO.

Brachytherapy has become such an integral part of clinical radiotherapy that clinicians cannot afford to be unfamiliar with this oldest practice of local radiation therapy. Advances in local tumour imaging techniques, in image guidance of procedures, in computer technology and improvements in interdisciplinary cooperation as well as more advanced knowledge in radiobiology and radiation protection led to the unique spread of modern brachytherapy techniques.

The programme for this meeting has been designed to promote pursuit of new knowledge and encourage the exchange of ideas and goodwill at congenial gatherings, both scientific and social.

Porto, also Oporto in English, is Portugal’s second city, and is located in the estuary of the Douro river in northern Portugal. As the largest city in the region, Porto is considered the economic and cultural heart of the entire region. The historic centre of Porto was declared a World Heritage Site by UNESCO in 1996. Porto has several museums, concert halls, theaters, cinemas, art galleries, libraries and book shops. The city is also home to a number of dishes from traditional Portuguese cuisine as well of the Port wine, an internationally renowned wine, which is widely accepted as the city’s dessert wine.

In this Mediterranean coastal region spring is a smooth transition between the neighboring seasons and becomes less common by mid April.

It is my hope that your participation proves profitable for you, and it gives you reason to be glad, as I am, that our local organizer colleagues generously undertook their task so that members and friends of the GEC-ESTRO family from all corners of the world meet in Portugal.

I wish you well.

György Kovács

CALL FOR ABSTRACTS

GUIDELINES FOR SUBMISSION OF ABSTRACTS

Deadline for submission: February 5, 2009
Note: Only one abstract as presenting author can be submitted

GENERAL INSTRUCTIONS
Abstracts must be submitted on-line, through the ESTRO website: www.estro.org.
Please follow the instructions on the screen.

For questions regarding the on-line submission process, please e-mail lea.minnen@estro.org
- When finished with the on-line submission, it is imperative to click the «submit» button for final submission of the abstract; a message will then appear informing you that the abstract has been registered successfully. The presenting author will receive an e-mail confirming that ESTRO has received the abstract. This confirmation of abstract receipt is NOT a notice of acceptance of your abstract.
- In case no confirmation from ESTRO is received, the presenting author should contact lea.minnen@estro.org within one week after submission of the abstract.
- Submitting an abstract for presentation does not constitute registration for the conference. Abstract presenters must register to attend the conference by following the instructions for on-line registration (www.estro.org).
- Once the abstract is submitted, changes, corrections or rewording are possible until February 5, 2009. Careful typing and proofreading are essential, as the abstract will be published as submitted.

REGULATIONS
- The presenting author is obliged to ascertain that all authors are aware of the content of the abstract before submission to ESTRO.
- The presenter and co-authors must identify any financial interest in products or processes described in the abstract.
- In submitting an abstract, the authors accept that the information to be reported is for exclusive presentation in the session to which the abstract will be assigned if accepted.

This information should not be presented at a commercially sponsored satellite symposium.
- Abstracts must be submitted and presented at the conference in English.
- Notification of receipt and acceptance will be sent only to the presenting authors.

a. General information
Authors will be asked to select the following:
1. Topic category: choose the topic category that refers to the main subject of the abstract. The scientific Committee has the authority to re-categorise the abstract.
2. Presentation preference: authors should indicate the presentation preference (oral, poster or no preference). Please note that the final decision on the presentation format will be made by the Scientific Committee
3. Select your public preference for presentation
4. Keywords: authors have to provide 1 to 3 keywords (different from category).

b. Abstract format
- Abstract titles should be brief and reflect the content of the abstract. The title (max. 100 characters) is important since it focuses attention (it is the “showcase” for the presentation). Do not use capital letters in the title except for words that are always capitalised and do not use non-standard abbreviations.
- Abstracts should be structured in such a way as to include (1) Purpose; (2) Material; (3) results; (4) conclusion.
- The use of standard abbreviations is desirable. A special or unusual abbreviation must be placed (in round brackets) after the first appearance of the word for which it stands.
- The on-line abstract submission procedure will not accept abstracts that exceed 2500 characters (body of the abstract).
- Authors can include only one figure, table or black/white illustration (maximum width 7cm). Colour illustrations will be printed in black/white in the abstract book.
- Equations can be inserted using LaTeX.
- The preferred font is Verdana 7.
**CALL FOR ABSTRACTS**

**ABSTRACT SELECTION PROCESS**

Abstracts submitted for presentation will be reviewed by an international panel of experts in the field of the subject.

Abstracts will be selected for one of the following presentation formats:

- Oral presentation: the abstract is selected for oral presentation at any of the proffered paper sessions.
- Poster presentation: abstracts that have been selected for presentation in a poster format. The posters are grouped by topic and are displayed throughout the meeting.

Abstracts selected for oral and/or poster presentation should be presented at the meeting. If a selected presenting author cannot attend, they should assign a replacement and inform the ESTRO office of the replacement as soon as possible.

**TOPICS**

- Image Guided Brachytherapy
- Brachytherapy Physics
- Brachytherapy of Head and Neck Cancer
- Brachytherapy Complementary to External Beam Radiation
- Combined Brachytherapy and Surgery
- Brachytherapy in Children
- Miscellaneous

**Topics for ISiORT Europe Meeting**

**AWARDS**

***PROFFERED PAPERS***

Accepted abstracts will qualify for either oral presentation or poster presentation. They will be published in the abstract book, which will be a supplement to the journal “Radiotherapy and Oncology”. By submitting an abstract, you are automatically applying for the “ESTRO-Nucletron Brachytherapy Award”. Since the selection of the winner will be based on the data provided in the abstract (and not on the presentation) it is advisable to draft your abstract with extreme care providing sufficient data for the evaluation by the jury (see below).

***BEST POSTER AWARD***

Since only a limited number of abstracts can be accepted for oral presentations in order to allow sufficient discussion time, poster presentations will be an important feature of this meeting. To encourage quality presentations, a “Best Poster Award” competition has been established. The criteria for selection are, in decreasing order of importance, the scientific value of the data, the clarity of their presentation and the visual quality of the layout. The award will be a 350.00 € travel grant for a future ESTRO activity.

***ESTRO-NUCLETRON BRACHYTHERAPY AWARD***

Abstracts accepted for oral or poster presentation at this meeting automatically participate in the competition for the ESTRO-Nucletron Brachytherapy Award. The winning abstract will be selected by the Scientific Committee on the basis of the containing data. The award will be given to the most innovative paper submitted for presentation at the GEC-ESTRO Brachytherapy Meeting. The award amounts for 1,700.00 € and is awarded during the conference.

***PRIZE FOR THE BEST JUNIOR PRESENTATION***

Applicants should be junior members of the society, and along with the abstract, they should add a covering letter from the head of department stating that the work has been done by the Junior Applicant. The prize will be a 350.00 € Nucletron travel grant for a future ESTRO activity or the equivalent paid in cash.

***TRAVEL GRANTS***

Junior ESTRO members who need support to attend the meeting may apply for “Junior Brachytherapy Travel Grants” sponsored by Nucletron.
**UPDATE INFORMATION**

Please consult the ESTRO website on a regular basis for updated information.

**CALL FOR ABSTRACTS**

Abstracts must be submitted online through the ESTRO website which hosts an electronic abstract submission form. One abstract as presenting author can be submitted.

**ONLINE REGISTRATION**

Registration to the conference will be exclusively through our online registration form via the ESTRO website.
